SUMMARY

I am a coding enthusiast looking for an opportunity in an esteemed organisation where I can utilise my skills and enhance the learning in my field of work. I am a creative, sharp-minded person with leadership & coaching skills, possessing strong time-management skills and work ethics. Looking forward to master new technologies.

WORK EXPERIENCE

Tech Mahindra
Full Stack Developer (Internship)

Aug 2023 - Sept 2023

- Orchestrated the design and deployment of an innovative web-based application, enhancing headcount management and streamlining operations for multiple clients.
- Engineered full-stack solutions with the MERN stack, integrating advanced encryption and API keys to ensure secure data transfer and robust data integrity.
- Spearheaded the architecture of a dynamic backend system, seamlessly integrating it with the frontend for optimal performance and reliability.

College Tips
Marketing and Graphic Designer (Internship)

May 2023 - Jun 2023

- Transformed marketing materials through innovative graphic design, enhancing the company's visual identity across platforms.
- Developed dynamic social media graphics to elevate online presence and engagement.
- Crafted compelling advertising content and collaborated on visual identity projects, combining marketing insights with cutting-edge design for memorable branding solutions.

PROJECTS

SYMPTOM CHECKER CHATBOT
- Architected an intelligent chatbot utilizing advanced machine learning algorithms to assess the likelihood of various diseases based on user-reported symptoms, providing users with reliable and insightful health information.

E-COMMERCE WEBSITE FOR FARMERS
- Developed an innovative e-commerce platform tailored for farmers, connecting them with agricultural experts to share the latest farming practices, introduce new pesticides, and offer educational videos on soil and weather patterns. Integrated with prominent e-commerce platforms like Big Basket and Zepto to enable farmers to market their produce at optimal prices.

XANDER AI
- Developed a Python-based personal assistant integrating speech recognition, text-to-speech synthesis, web browsing, and AI, enabling natural language dialogues through seamless voice interaction.

PORTFOLIO WEBSITE
- Engineered an elegant personal portfolio website using HTML, CSS, and JavaScript, meticulously curating and showcasing my projects, skills, and experiences. This sophisticated online representation of my work serves as a dynamic platform to highlight my professional abilities and accomplishments.

EDUCATION

VELLORE INSTITUTE OF TECHNOLOGY   **2021-2025**

B.S. in Computer Science Engineering (specialization: Blockchain Technology)
GPA: 8.24/10

PACE JUNIOR SCIENCE COLLEGE   **2019-2021**

IIT JEE integrated course
Grade 12: 90.50%

SHISHUVAN HIGH SCHOOL   **2019**

Grade 10: 93.8%

SKILLS
